

***Water Memory Leads to Science of New Paradigm
beyond Materialism***

Won H. Kim, Yonsei University

Scientific Quest for Truth

Paradigm

Materialism

Incompleteness Theorem (by Göthel)

For any system, there will always be statements which are true, but are unprovable within the system.

Such fact can be judged only at higher dimension.

Paradigm shift is unavoidable

Water Memory - Paradigm of 21st century

Quantum science came from the trial to explain the unexplainable fact, black body radiation.

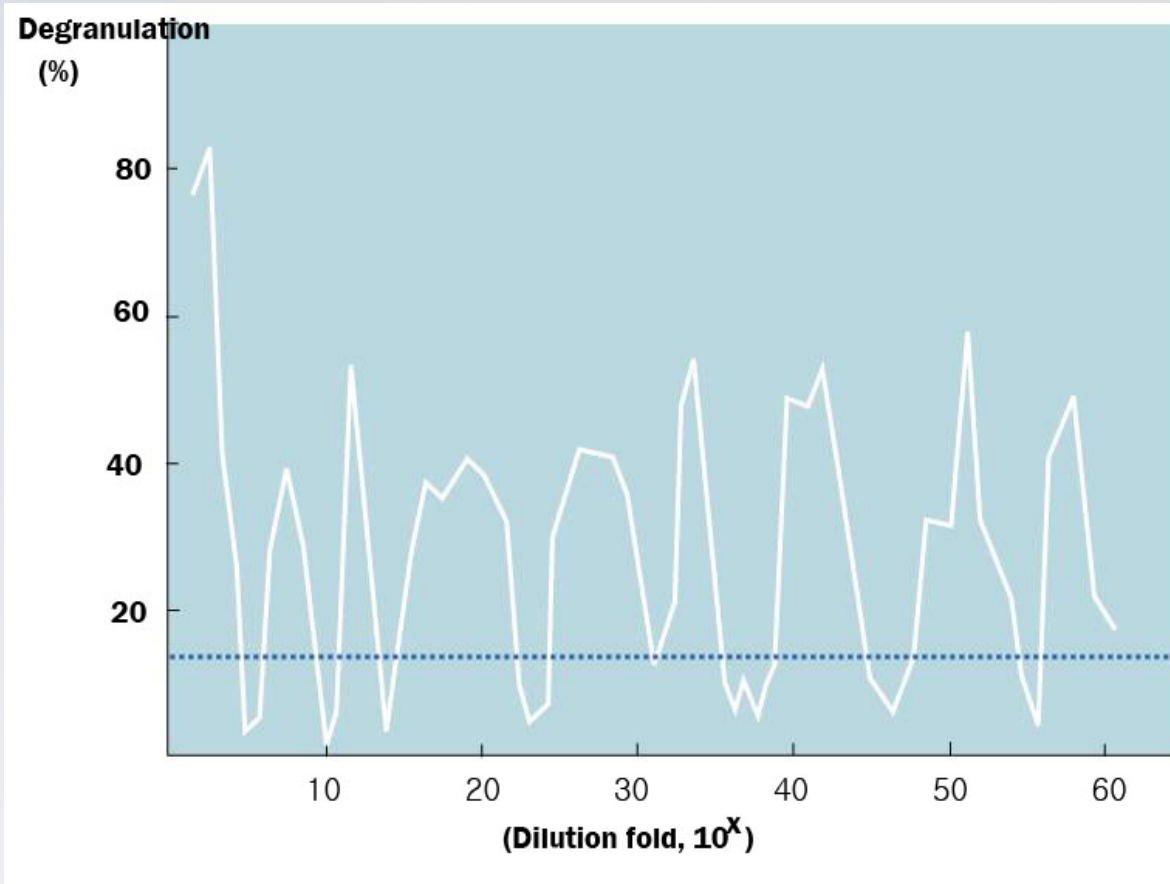

Modern physics focus only on particle.

21st century needs New Paradigm beyond Materialism.

New Paradigm begins from the fact which cannot be explained by current paradigm,

Water Memory!

Benveniste first proved water memory scientifically

Confirmed by double blind test
(Inflammation research, 2004)

Benveniste designed efficient method to monitor basophil degranulation using decoloration of toluidine blue

Blue color disappeared by binding with anti-IgE (degranulation)

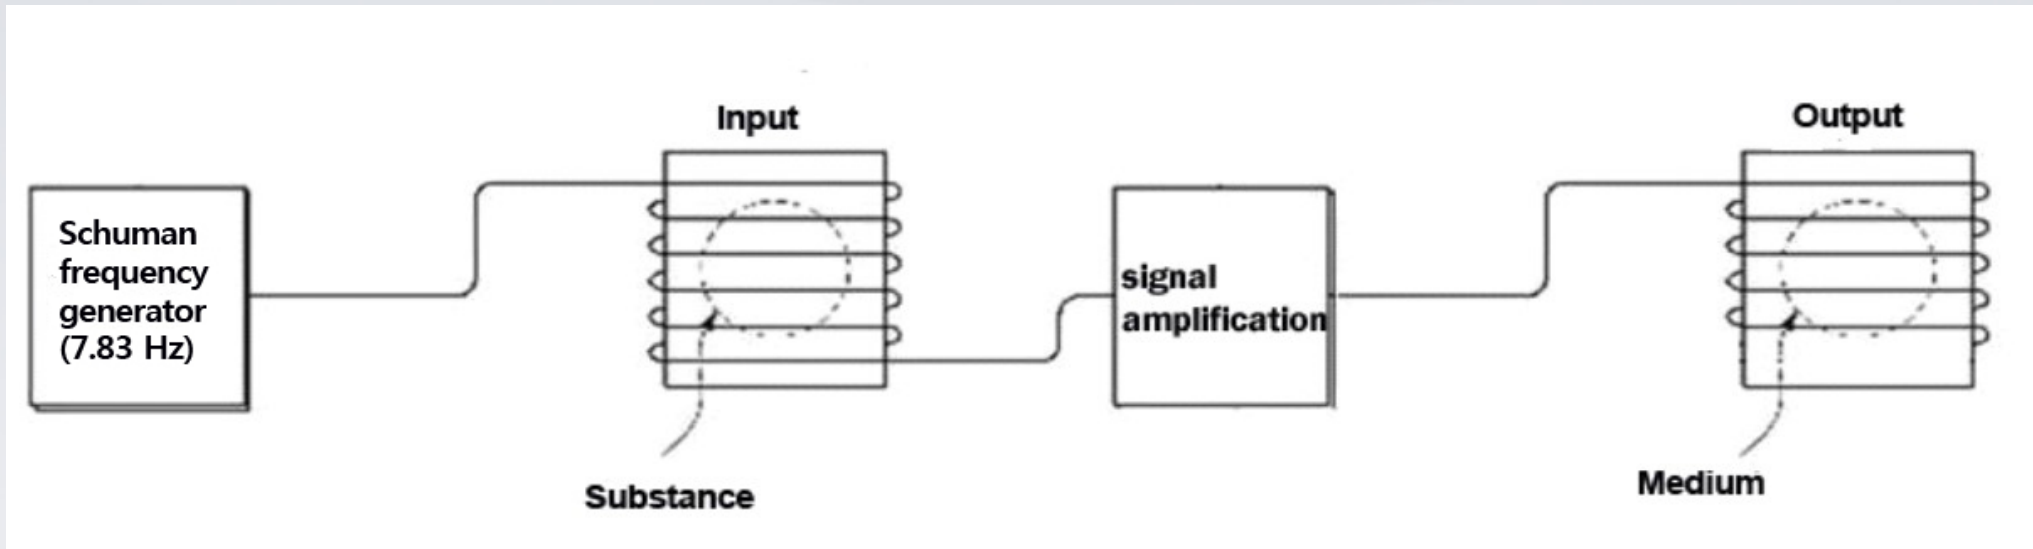

However, degranulation did not decrease as anti-IgE diluted by succussion, showed wave-like pattern.

Water memory with bio-resonance

Vitamin C(material)	Vitamin C(bio-resonance)
1	3
10^{-3}	3
10^{-5}	5
10^{-7}	6
10^{-9}	1
10^{-11}	0
10^{-13}	4
10^{-15}	2
10^{-17}	1

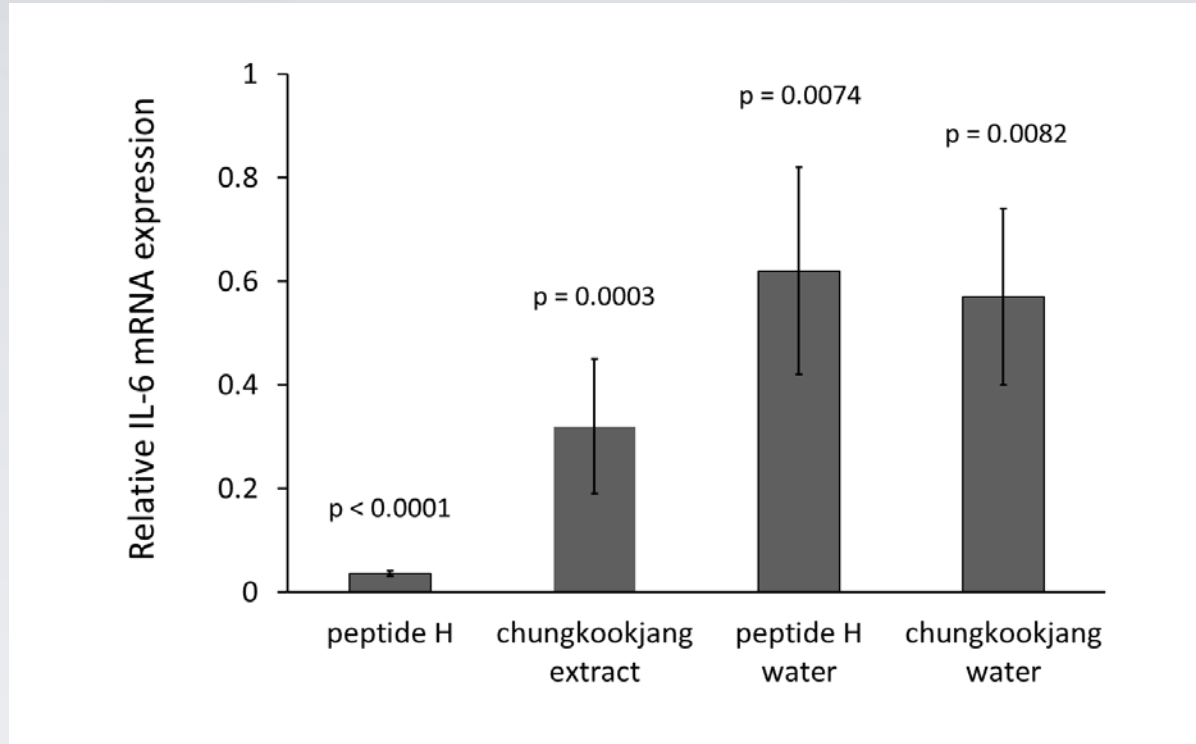

~~Wave-like pattern like that of Benveniste~~

Information Transferring Device

Information of substance could be transferred to various media
(water or ceramic ball)

Inhibition of IL-6 expression with water memory

Chungkookjang is a traditional Korean fermented soybean extract

Chungkookjang and peptide H in Chungkookjang shows strong anti-inflammation effect.

Water to which information transferred also showed anti-inflammation effect

Mineral Reduced Water (MRW) with P53 information

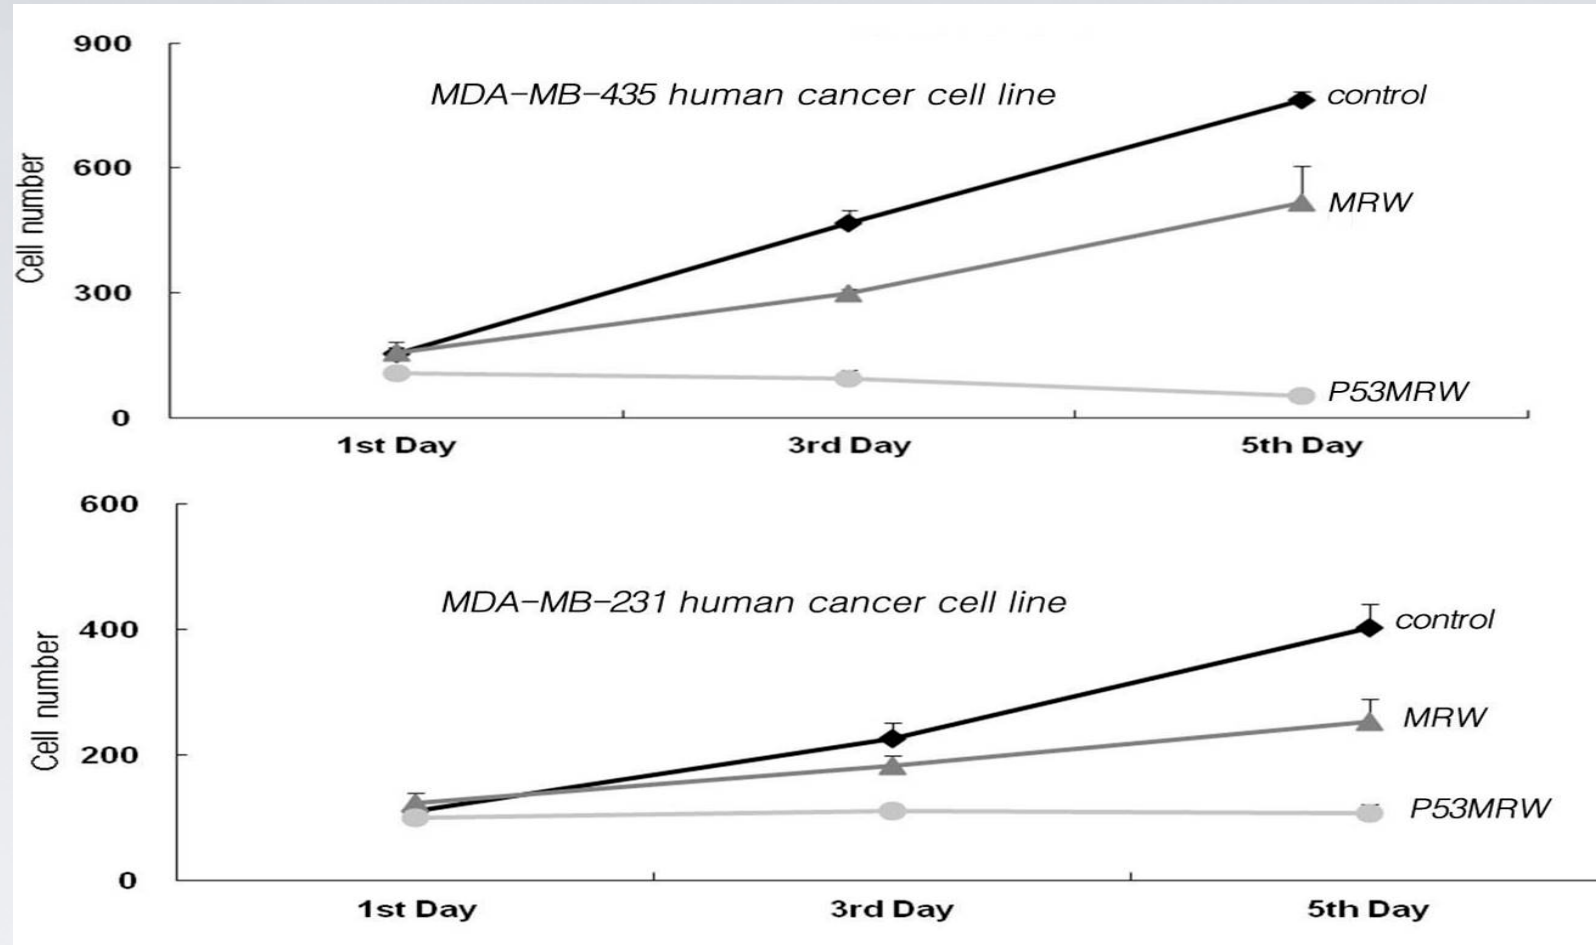

Mineral Reduced Water (MRW) is
hydrogen rich alkaline water produced by
ceramic balls mainly composed of magnesium (UM)

MRW shows anti-oxidant and immunity boosting effect
MRW shows anti-diabetic and anti-cancer effect

Information of P53 was transferred to UM
UM produces MRW with P53 information

Effect of P53 information on cancer proliferation

UM to which information of P53 transferred showed very stronger anti-cancer effect than MRW

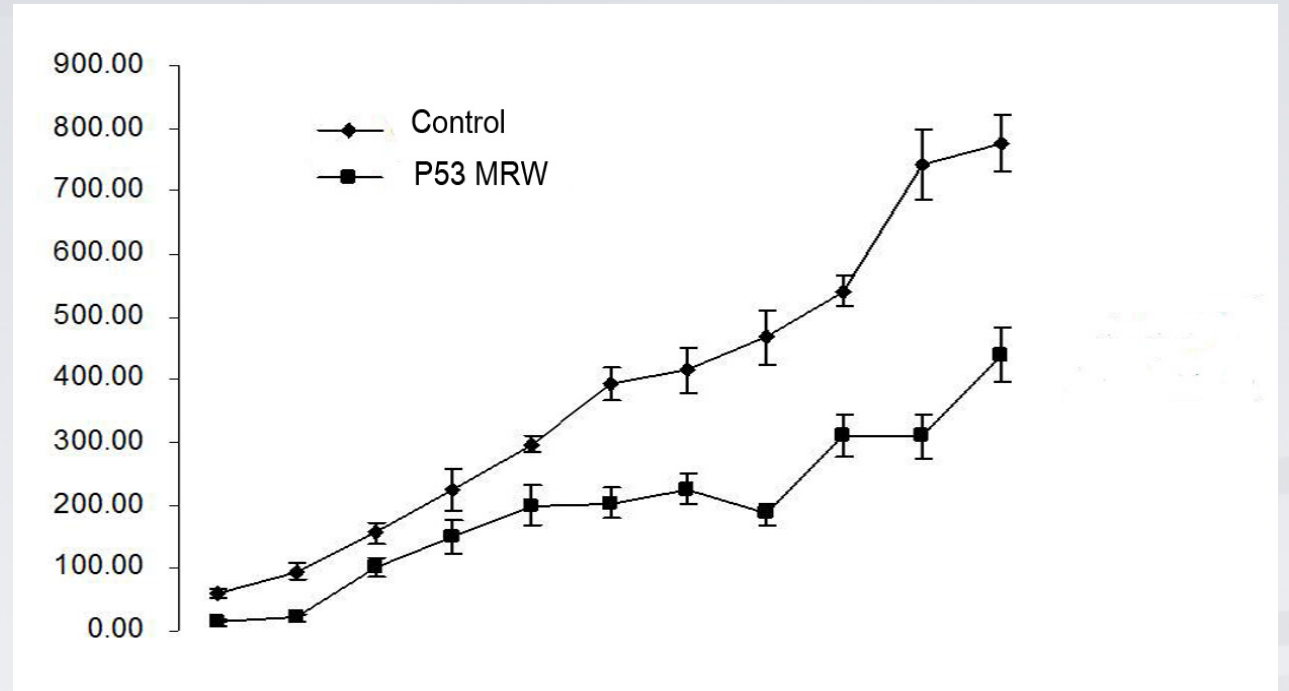

Effect of P53 information on Apoptosis

Inhibition of P53 information on Metastasis

In vivo imaging of cancer cell

DNA wave by Montagnier

Nobel laureate Montagnier and colleagues showed that DNA polymerase could recognize wave part of HIV transferred to water and produce new DNA copies using PCR (Polymerase Chain Reaction).

Proved that DNA wave imprinted to water was physical entity recognizable by DNA polymerase

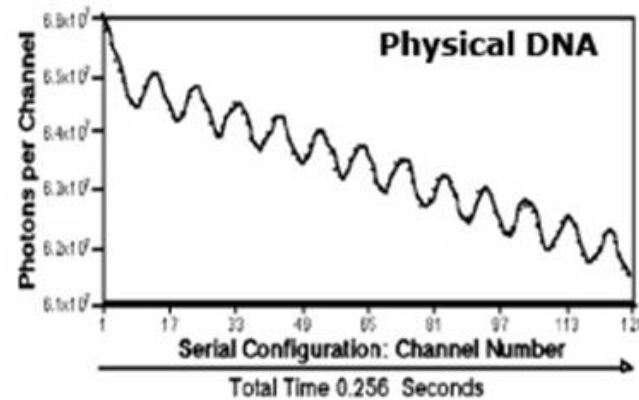

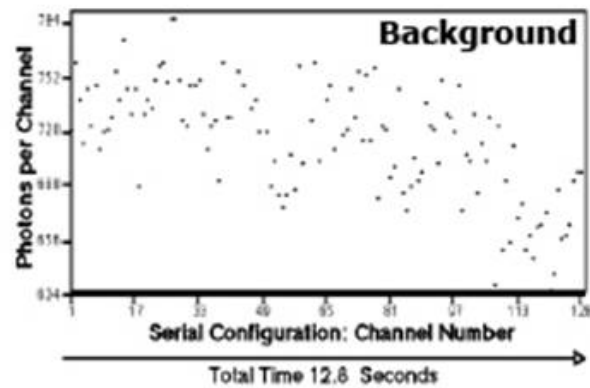

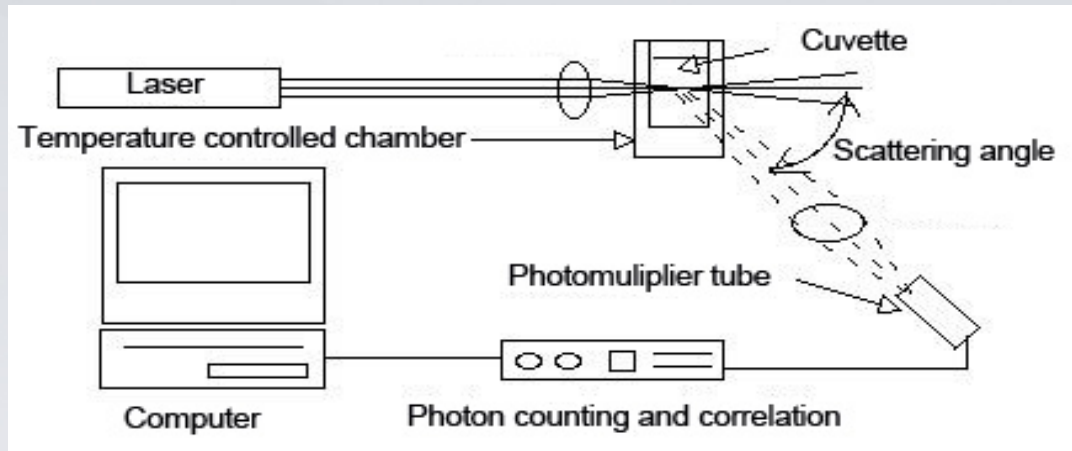

**Water Memory was proved scientifically,
by Benveniste, Won Kim, Montagnier....**

Science behind water memory?

**CD (Coherent Domain) traps EMF
EMF could be measured in CD of water
EZ (Exclusion Zone) could be CD..**

**EMF and CD absolutely necessary?
What kind of wave is trapped in CD?**

Phantom DNA

Phantom DNA lasts a month.

Phantom leaf by Kirlian photography!

**There is an entity of the matter existing as a field
with certain 3D structure: 3D wave or Chi (氣)**

DIGITAL BIOLOGY

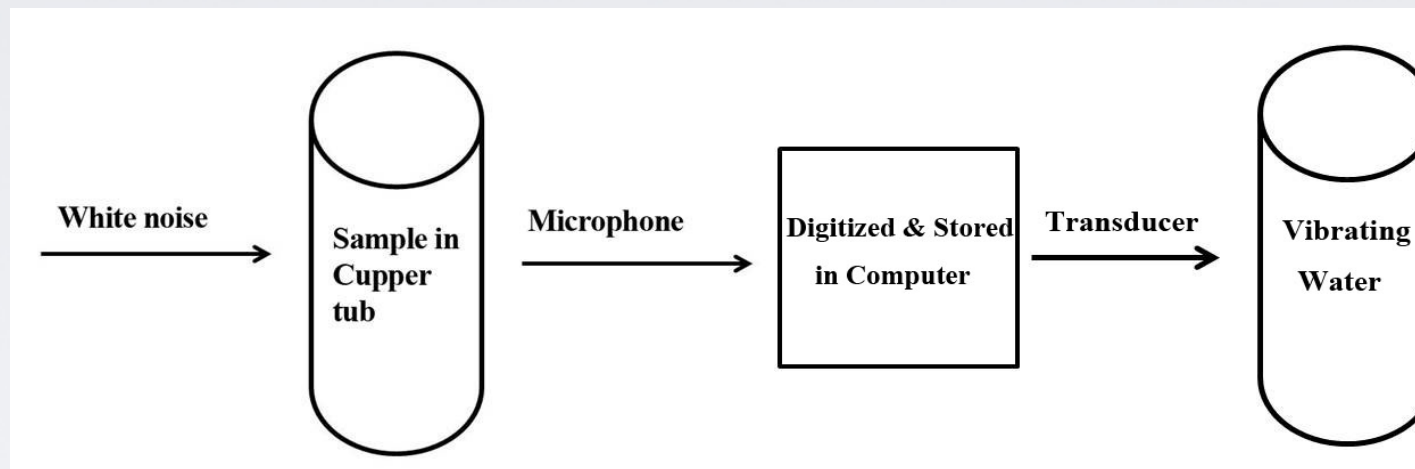

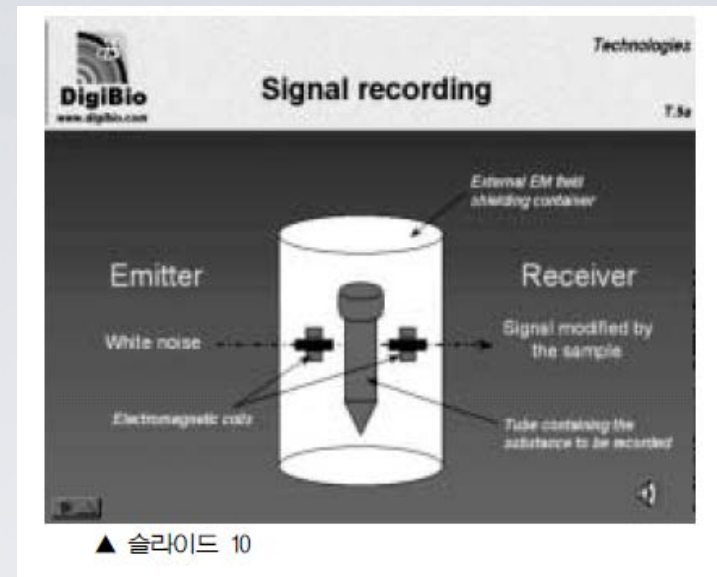

Comparison of current theory(left) and Benvenist's Digital Biology(right)

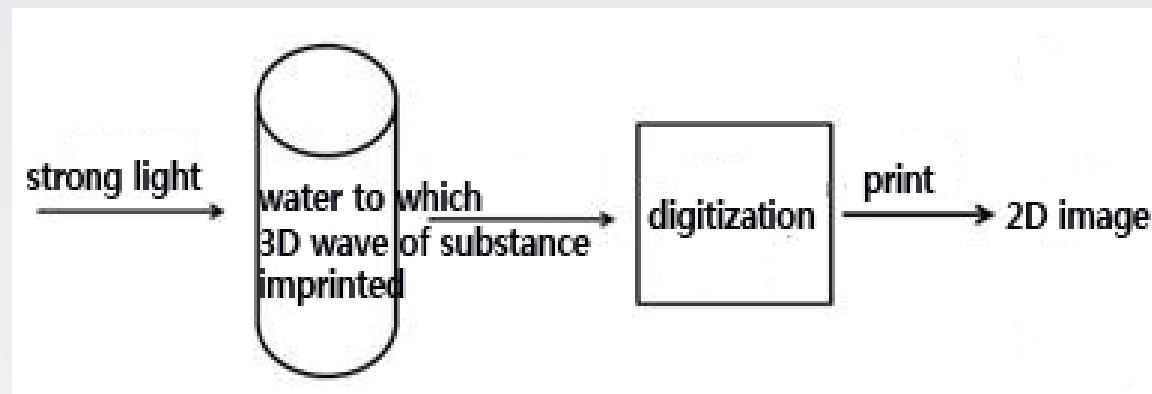

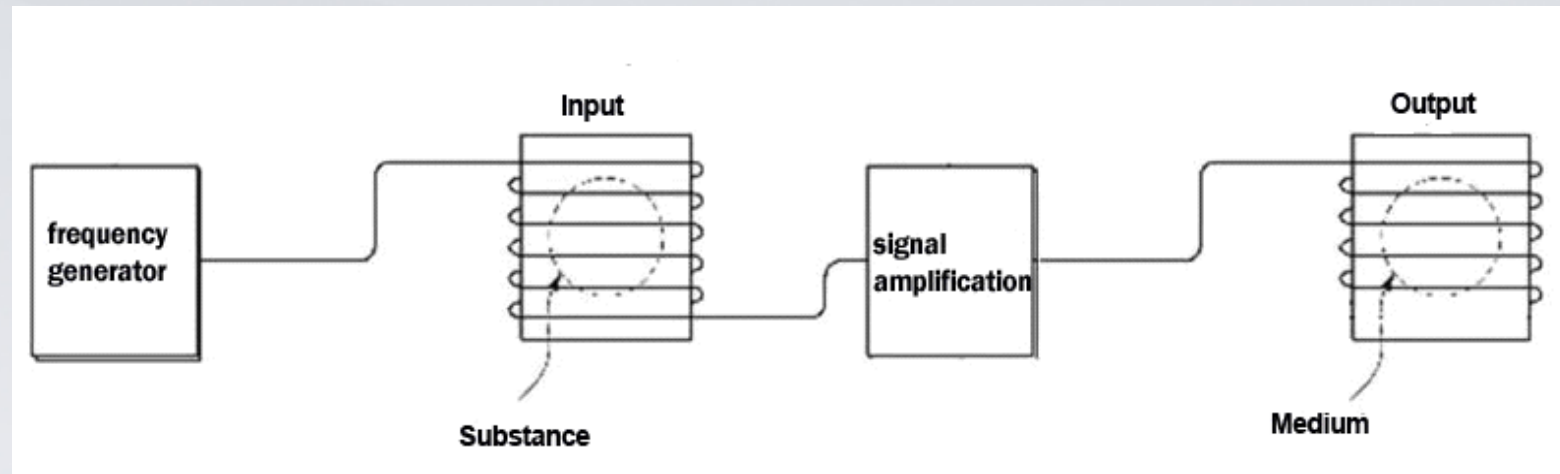

Considering the size of molecule and cell, possibility of colliding for two molecule is so low (almost impossible).

Signal transduction could be initiated by the interaction with wave of the substance: 3D wave

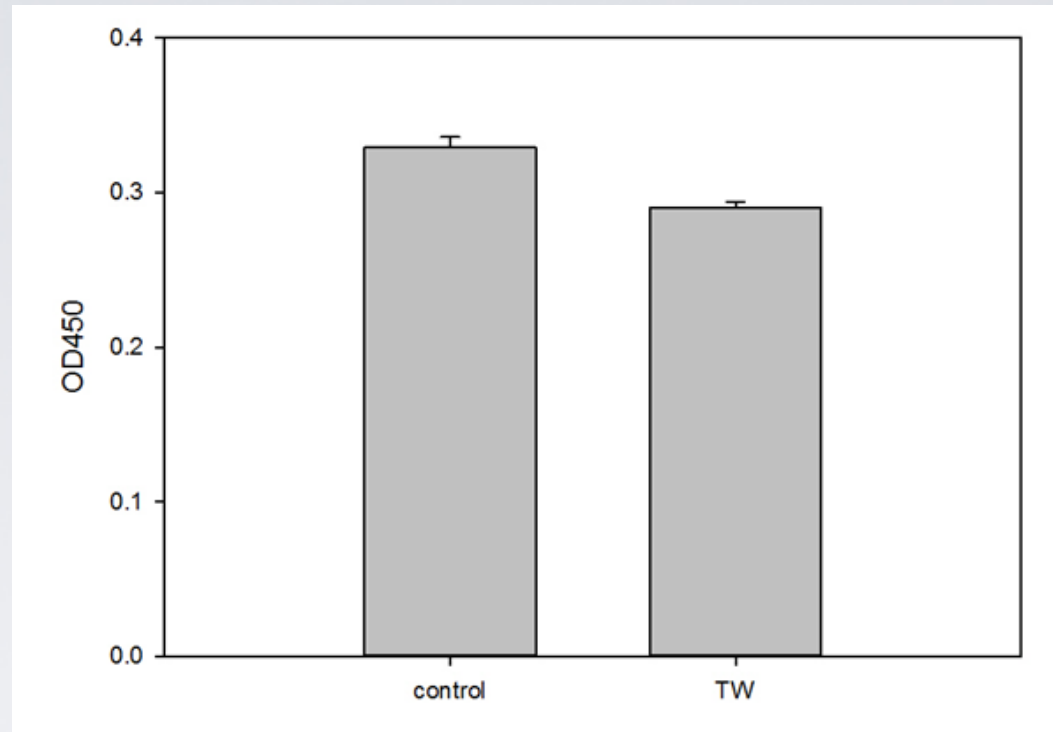

Benveniste used white noise as a vehicle for digitization

Digitization for visualization

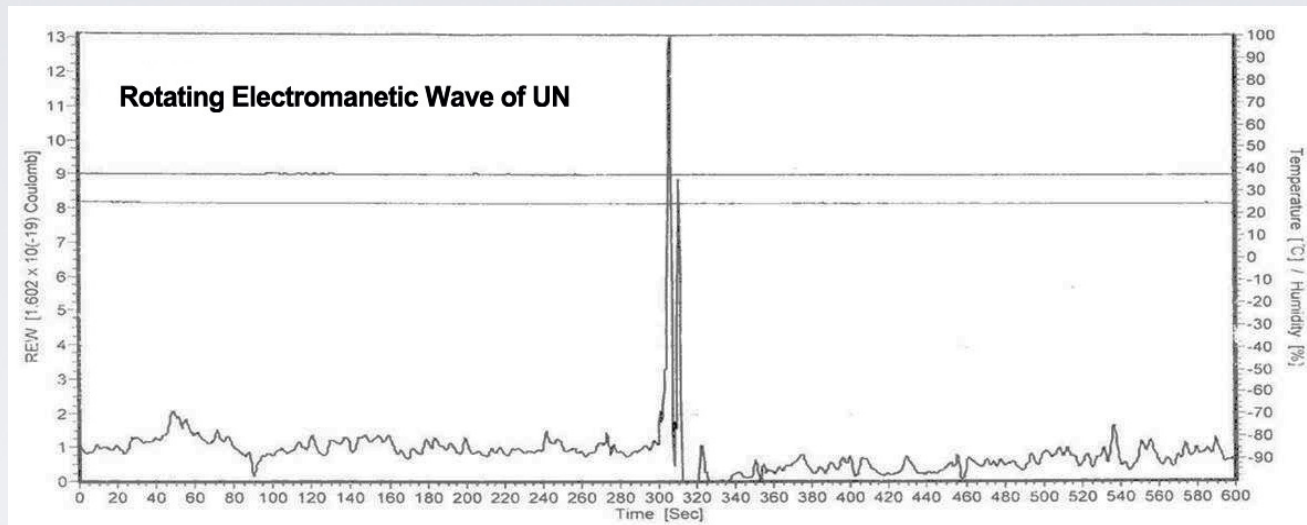

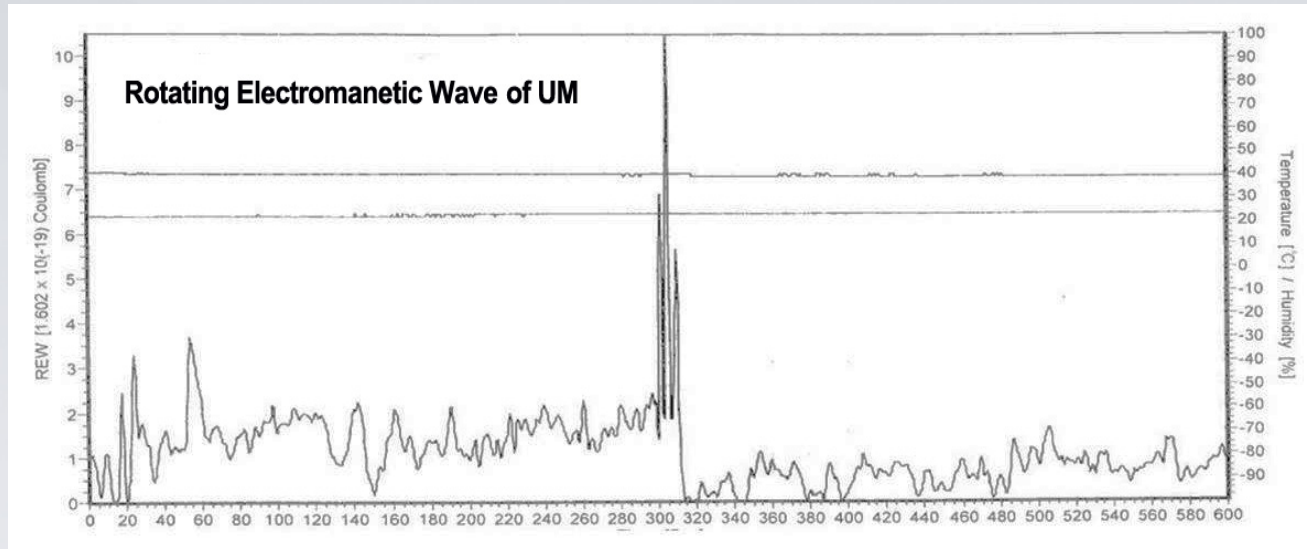

Effect of digitized 3D wave of P53 on cancer cell proliferation

How printed 2D shape could induce biological reaction?

Rotating Electromagnetic Wave

Plastic UN card shows the same pattern with UM,
which appears only in natural rock

UN CARD (Healing Energy in Korean)

Digitized 3D wave of any drug, cytokine, hormone could be expressed in any 2D space.

P53 expressed in card functions like P53 to human.

Science behind digitized 3D wave expressed in 2D space?

Duality

Einstein:

Light is particle (photon)

Speed is confined to C

De Broglie:

Every particle has a wave (matter wave)

Pilot wave

Faster than C (Eisberg, R. M. 1961)

Interacting with environment

Exist as hidden variable (not detectable)

$$w = \frac{c^2}{v_p}$$

Light faster than C?

Any material with mass cannot reach the speed of C.
(Special Relativity: Einstein)

$$m = \frac{m_0}{\sqrt{1 - v_p^2 / c^2}}$$

- Anything faster than C should have imaginary mass
→ Imaginary matter
- Imaginary matter could form 3D field→3D wave
- Energy is needed to reduce entropy
- 3D wave forms Information without putting energy

Dirac sea of vacuum

-Vacuum is full of particles with imaginary mass

The **Dirac sea** is a theoretical model of the vacuum as an infinite sea of particles with negative energy.

The positron, the anti-matter counterpart of the electron, was conceived of as a hole, well before its experimental discovery in 1932. (Wikipedia)

Holographic Universe

How printed 2D shape could induce biological reaction?

2D shape of digitized hormone printed on card commands
imaginary space in a holographic way
to form the field of 3D wave of the substance

Hologram is a characteristic of imaginary space

Life itself is a interaction between the part and the whole,
which is hologram

Water memory

Physical matter & Imaginary matter

Every physical matter has a corresponding imaginary matter
which exists as a field with 3D structure → 3D wave (Chi 氣)

3D wave could be separated from matter

by physical stimulation, such as violent shaking in homeopathy
or electrical stimulation → **Water memory**

CD and EMF are not absolutely necessary for water memory

Aromatic ring generates EMF

EZ water shows delocalized electron

EMF measurement is a characteristic of CD

CD or EZ water may be helpful for maintaining water memory

3D wave is effective and safe

Dopamine and L-DOPA

Serotonin and Prosaic

3D wave of the substance contained in water or card

could pass BBB (Blood Brain Barrier)

No need to bypass

Analogue type water memory and digitized 3D wave

3D wave of any hormones, cytokines, drugs could be directly transferred to various media (water or ceramic ball)

→ analogue type water memory

3D wave of the substance could be digitized and expressed in 2D space
various application is possible (card, wall paper, cloth, & electricity)

→ digitized 3D wave

Digitized 3D wave modulated to Electricity

(UL: Healing Electricity in Korean)

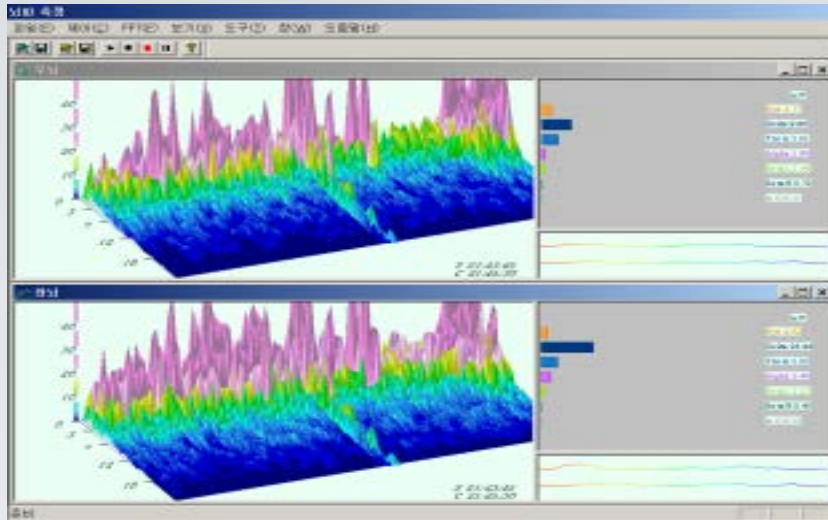

Effect of UL(Healing Electricity) to Mobile phone

Measurement of bio-resonance

	NORMAL	MOBILE PHONE	MOBILE PHONE WITH UL
IMMUNITY	18	-17	22
BRAIN	18	-10	19
PINEAL GLAND	19	8	19
PUTUITARY GLAND	19	8	19
HORMONE BALANCE	19	8	19
CANCER	18	10	19

Data suggest that mobile phone could be even used for healing purpose

Effect of UL to Brain wave

BRAIN WAVE WITHOUT UL

BRAIN WAVE WITH UL

Brain wave is stabilized while watching computer monitor.
Computer and TV could be used for healing purpose

Temperature of Mobile phone (i-phone4S) after 30 minutes of continuous use

charged with normal electricity

charged with UL

Reduction of Electrical Usage of House by UL

Characteristic of UL

- *Mobile phone give you good feeling and do not heat even after long usage.*
- *Relieves shoulder pain and blood congestion of eye while watching computer monitor.*
- *Brain wave is stabilized while watching computer monitor or TV.*
- *Food made by electrical cooker tastes better and freshness maintained longer.*
- *Cooling system gives you good feeling.*
- *UL works as electricity saver.*
- *3D wave of the drug, hormone, cytokine could be contained in UL.*
- *Every electrical device could be turned into healing device.*

‘Let there be light, there was light’ (Genesis 1:3)

Two kinds of Light

Light forming matter : $E=MC^2$

Particle and Wave are the other side of coin

Both are in the physical area

Light leading to relation and life? (faster than C)

3D Wave (imaginary field of the substance)

4D wave (imaginary field making relation)

$$w = \frac{c^2}{V_p}$$

Which one is the first?

New Paradigm beyond Materialism

- **Science of 3D wave or traditional Chi is regarded superstitious, as it cannot be explained by current paradigm based on materialism.**
- **Phenomena due to imaginary matter and 3D wave indeed exist in reality and are already used in various area.**
- **Healing with water memory and 3D wave is effective and safe.**
- **Investigation of the water memory and 3D wave will not only lengthen horizon of the science, but also benefit human society.**
- **21st century should be an era of new scientific paradigm beyond materialism**

Thank You

UN Healing Energy is being generated from the background.
